Letter *From the CEO*

Dear Colleagues, Customers and Partners,

Like in previous years, the last year will be remembered as a year of great changes and comprehensive development. In 2012 FINCA Azerbaijan has accomplished new achievements having successfully implemented its development strategy. I would like to draw your attention to some positive results and achievements that are significant to us. Certainly, these results are related to the sustained development of the country's economy, including development of the microfinance industry.

In 2012, FINCA Azerbaijan continued its successful development and ten-year leadership at microfinance market in terms of number of clients. Thus, last year active client number increased by 14% and reached 136,919 clients, which is approximately 29% of the microfinance market in the country. And increase in loan portfolio is 30%, which is more than two times compared to number of clients. At the end of 2012 the loan portfolio of the company exceeded \$150 million. We take pride, though with humility, in these great achievements with the help of all staff and this further solidifies our intent/mission to continue providing support to all those clients with financial services.

Last year the organization expanded its network by opening 2 new branches and 2 new market-offices. Besides this, last year the organization was honored with "Organization with exemplary customer complaints management mechanism" award by the Azerbaijan Microfinance Association.

FINCA Azerbaijan has been operating in Azerbaijan since 1998 and is the microfinance market leader in terms of client number and scope of its services. FINCA Azerbaijan belongs to the FINCA International network, which provides financial services to low-income entrepreneurs in 22 countries on 5 continents.

Currently, FINCA Azerbaijan has 30 branches and 34 market-offices providing financial services to more than 140,000 active clients in more than 60 districts and cities throughout the country. Since 1998 FINCA Azerbaijan has given more than 800,000 credits with the more than 800 million USD amount. FINCA has impact on more than 500,000 entrepreneurs in Azerbaijan, who are the 5.6% of country population.

The main objectives of FINCA Azerbaijan in 2013 – to increase number of clients to reach 150,000 with maintaining market share and loan portfolio to go above \$200 million, to continuously improve customer service, to make all efforts to transform into a bank, and the most important – in accordance to principles of social responsibility and FINCA's mission, to make contributions to the development of small and medium entrepreneurship and socio-economic development in Azerbaijan.

What is FINCA Microfinance Holdings?

FINCA Azerbaijan is a subsidiary company of FINCA Microfinance Holdings (FMH), which is owned and managed by FINCA International, Inc., a not-for-profit micro-financial services organization operating in 22 countries on five continents, creating a global network of shared expertise. The establishment of FMH supports strengthening the FINCA brand, with a clear mandate to continue to provide financial services to the world's lowest-income entrepreneurs.

FMH leverages the funding of socially-responsible investment partners who share FINCA's mission of providing financial services to low-income entrepreneurs so they can create jobs, build assets and improve their standard of living. The partners in FMH include a carefully-selected group of international development banks and socially-responsible investment firms whose missions align with FINCA's own goal of alleviating global poverty. These organizations share our "double-bottom line" approach of maximizing social benefits with financial returns, and have long-standing lending relationships with FINCA. They include:

- International Finance Corporation, a member of the World Bank Group;
- KfW, the German development bank;
- FMO, the Dutch development bank;
- Responsibility Global Microfinance Fund, an investment fund advised by the Zurich-based asset manager responsibility Social Investments AG
- Triple Jump, a Netherlands-based microfinance investment firm.

In tandem with FMH, FINCA has also established a Social Performance Audit Committee of the Board, a first-of-its-kind in the industry. The goal of this Committee is to identify and track social performance indicators on an ongoing basis to ensure that FINCA remains focused on client welfare and protection, maintains transparency, and develops new products that are tailored to enhance client well being.

 Sincerely,

Manish Sane
